Rosemary's career story as PDN

Photo by Anna Kolosyuk on Unsplash

I choose to become a pediatric home health nurse because I am a mom myself and I couldn't imagine taking care of a special needs child 24/7 without any help. I wanted to work with children ever since I knew I wanted to be a nurse.

It makes me happy to hear parents say thank you for your support and caring for our child. We couldn't get to do things with our other children or for ourselves without help. I also love to see my patient smile and acknowledge me when I come in. It is an awesome feeling.

When I graduated nursing school I worked in a long term care facility to gain experience in the medical field as a nurse. After about 6 months I applied to a pediatric home health agency. I had worked in childcare before going to school and I took care of a child with special needs so I was familiar with some of what the job would entail. I too had a couple of my children in the NICU so I also experienced a lot of treatments. I believe this knowledge helped me to prepare for a position working with children.

As far as my future plans, I will continue working with families of special needs children.

PPC'S HOLIDAY DINNER

Thank you for join us for PPC's holiday staff dinner! We hope you enjoyed it!
It was awesome with PPC's staff!

Happy New year! We hope that this New Year will be better than the previous!
